

# Community Services Unit

Activities of June 2019

# Agriculture Activities

- 101 new farmers were selected to join the Adarsha Bagicha project for the year 2019-20. There is an increasing demand from farmers of this area to join the project as the results speak for themselves. Unfortunately, due to limitations of staff and other resources, we have to restrict the numbers selected each year.
- Around 50% of the selected farmers for Adarsha Bagicha project for 2019-2020 are female.
- Vermi-compost pit construction work has started in some of the AB farms.
- Nursery work continues in Asha Kiran for some forest trees and a few villages have started nurseries for vegetables and hedge plants.

Palliative Care- our nascent unit continues to visit patients within Lamtaput block.

# Mental Health – youth continue to be a priority

Mental Health First Aid Session held in Dumripada, Bonda Hills during Alex Memorial Cricket Tournament.

Orientation for SEC, AK and MLE Supervisors on Mental Health
